

HOVMAND HPV15W

HPV15W is a mobile version of the robust HPV15 PU machine for polyurethane and polyurea with a capacity of 15 kg/min, mounted on a high trailer.

The machine is both easy to operate and maintain and comes with its own power supply in the form of a compressor and a petrol-powered hydraulic pump and generator.

Technical Specifications		23.10.2014
Maximum Output:	Kg/min	20 (low pressure mixing head with static mixing)
Maximum Pressure Rating:	Bar	100
Tanks:	l	2 pcs. (plus 1 solvent)
Heating Power:	kW	1
Hose Length:	m	Max. 36
Hose Heating Power:	kW	2
Generator:	kW	5
Compressor:		1,5kW, 100-200 l/min, 8-10 bar
Air Consumption:	l/min	100 - 200
Weight of :	kg	approx. 1100
