

HOVMAND HY40B

HPV40B is a mobile version of the robust HY40 PU machine for polyurethane and polyurea with a capacity of 40 kg/min build into a bus or van.

The machine is both easy to operate and maintain and comes with its own power supply in the form of a compressor and a petrol-powered hydraulic pump and generator.

Technical Specifications		23.10.2014
Maximum Output:	Kg/min	40 (low pressure mixing head with static mixing)
Maximum Pressure Rating:	Bar	100
Tanks:	l	2 pcs. 50/90/150/280
Heating Power:	kW	1
Hose Length:	m	Max. 30
Hose Heating Power:	kW	2
Generator:	kW	5
Compressor:		1,5kW, 100-200 l/min, 8-10 bar
Air Consumption:	l/min	100 - 200
Weight:	kg	approx. 1100
